How this Tuition Scale Works:

This tuition scale applies to children who will be five years old or older as of September 1, 2014. Using the total number of people in your family on the left hand side of the scale and your current annual household income across the top of the scale, find the amount you would pay per month after your child has met all enrollment requirements.

NOTE: If the amount you would pay on the sliding scale is more than your family can afford at this time, please contact the school at 801-437-0490 to learn more about additional scholarships and financial assistance which may further reduce the tuition amount listed above.
